

Seat Belt Assignment

Name _____

Date _____

Location _____

Parent Signature _____

Observe a parking area for a minimum of one hour and a minimum of 50 vehicles. Record the number of restrained and unrestrained drivers and passengers in each car. When finished, write a minimum one-page report on your observations and feelings about seat belt usage. Calculate separate percentages for males, females, and children and refer to those percentages in your report.

	License Plate	Males Restrained	Males Unrestrained	Females Restrained	Females Unrestrained	Children Restrained	Children Unrestrained
